vating religious life, just as all the affairs of life must be done in a methodical way, if we are to accomplish anything. The observance of the Christians are coming more and more to value and observe. Are we of the Church coming to value it less? Are we appreciative of the great value of a well-kept Lent? The special purpose of this season of forty days is to deepen our religion, to make us more Christ-like in character and endeavor. How may this be accomplished? There are three Notable Duties, which our Master stated to be fundamental in His Kingdom, namely: Prayer, Fasting and Alms-giving, as set forth in His Sermon on the Mount, in St. Matthew, chapters five to seven, inclusive.

In Christ Church, St. Paul, daily Morning Prayer is said at 10:00 a. m., that all may have opportunity in this down-town Parish for prayer and meditation, if they will. Noonday services are held from 12:10 p. m. to 12:30 p. m., with short ad-dresses by different Clergy of the Twin City. This service affords business men and women a short helpful Lenten service. Provision is made for those who cannot come during the day, by services on Thursday even ings at Christ Church, and by Inter-Parochial services on Tuesdays at a girls' choir, and a system of rewards for faithful attendance. Thus and Fridays, the opportunity is given for the practice of prayer in the "forty days" of Lent. Self-denial with reference to pleas. ures of the world, such as theatregoing, smoking, dancing, and luxuries of the table, are an excellent discipline of the body and mind, beside affording much more time for attending services and for private reading and praver. St. Mary's Church, Hillsboro, has recently reopened for services the Church building which had been closed for some time pending the remodeling and refurnishing of parts of the building. The opening service was a service of rededication of the renewed building to the service of God. The improvements included the rebuilding of the sanctuary and chancel, greatly enhancing the beauty of the furnishings and decorations. Much of the new work was in the way of memorial gifts to the Church in the names of former members.

To be religious is to have a sense of God. It is to be endowed with a sixth sense, a sense of spiritual touch. To be religious is to realize that God is and that we are under the protection of His good providence. That we are not masters of ourselves but subject to another's mastery. It is to definitely acknowledge the power of God over our lives, to realize that we are stewards to whom God has given a certain amount of opportunity and strength and that we are responsible for the way we use these things to Him.

But to be religious means not only that we have a sense of responsibility to God but that we have a certain privilege of approach to Him. He has promised on His part to help us. He has said, "Ask and ye shall receive." Religion is not merely "being good." A man might be a good man and yet not be a religious man-might not have this sixth sense of God.

us to God for help. It makes us realize that salvation is wholly from God; that only through Him are we able to want to do that which is right, and only through Him able to do that which His grace has made us want. Christ is the Alpha . and Omega of salvation, the beginning and the ending. It is His Spirit which brings us to repentance and right desires. his help that enables us to overcome temptation, His grace that gives the victory in the end. And by one of those paradoxes which are so common in

life, it is through the sense of our own helplessness that we reach our assurance of final salvation. Christ be for us, who shall be against us? What shall separate us from the love of Christ. He Who has begun the good work in us will finish it.

THE NECESSITY OF MAN'S **CO-OPERATION**

Yet both the Prayer Book and Scripture insist, with equal emphasis, upon the necessity of man's co-operation in the work of salvation. God Lord invites men to come to Him, He pleads with them to come, but He leaves them free to stay away if they prefer. In all His miracles of healing faith was required as the condition on which the healing would be worked. Faith might be vicarious, the faith of the parents was accepted for the healing of a child, or the raising from the dead, but always the co-operation of man's will was demanded.

St. Paul expresses the same thought This stage of discouragement is an of Divine Grace as the efficient cause trembling, for it is God that worketh

STATISTICAL VIEW OF CHURCH somewhere. Do you know anything about them?" The Chairman looks at EXTENSION

A writer in the January issue of The Newark Churchman sets forth a summing up of Church Almanac statistics that will be of interest to those who would know how we measure up quantitatively. Roughly stated we are about one in one hundred of general population. This proportion is not so great' as to justify us in regarding humility as a dispensable virtue at the present time, but, on the other hand, it would be a very potent proportion of leaven. One in a hundred will do very well as a starter if each of those ones will realize and exercise his right relation to the other ninety. This does not mean to try and make Episcopalians of them all in the present generation - the Episcopal Church is not strong enough to bear any such strain as that for some time to come. But it might mean, and it ought to mean, that each unit of leaven should so conduct himself that the term "Episcopalian" would come to be popularly regarded as synony mous with reverence toward God and a square deal to man. It is not so tub as it is more blueing. Yellow linname and address of one's laundress.

SLAVURKALIAN COMET

There are two points that the writer makes in the introduction to his statistical abstract that are worthy of more than passing notice. Taking them in inverse order the first would be-"We gather statistics on every subject nowadays and a great many of them have little relation to human life." Just so! A considerable meeting of men interested in good works comes together at quite a bit of expense for some of them. The piece de resistance of the day is to be a paper on the "Foreigners in Our Midst." The paper deals interestingly with the general subject and among other things makes reference to a peaceful invasion of the reader's Parish by a number of Slavurkalians. They have come there to work in a mill. The paper states its belief that there are many others of this peculiar race who have come to our shores to

MISSIONARIES

Anyone who has read Bishop Fiske's little book on "Service and Sacrifice,'' must be struck with the vital importance of strengthening the Church in rural communities.

The opportunity is greater than ever before, because of the general neglect which rural communities have suffered in the ruinously divided state of Christendom.

So long as a place is big enough for any particular demonimation to be sure of a constituency, the work is attended to, but as soon as the population is so scattered and divided as to deprive the demonination of such a nucleus, the work is neglected or abandoned.

In the olden time, when Missionaries had to depend upon a horse and buggy, or upon their legs, for transportation, it was a common thing for one Missionary to care for ten or a dozen places. but now with increased facilities for transportation, Missionaries are content to care for two or three towns and leave the cross-roads unshepherded. Nor is this altogether the fault of the Missionary. Modern methods of transportation are expensive and the salaries of the Missionary are small, and the work is hard.

But the movement, begun in New England, to reach the remote and isolated farmer, has gained momentum and is spreading West, and the call of Bishop Fiske to seize this opportunity is being felt all along the line.

But how is it going to be done? It would seem as though a where machines could be profitably used; and if the various Dio like herself, was a catechumen, and a son, an infant at the breast." cesan Boards would grant Missionary appropriations on the basis of the recipient doing Missionary work, and not stationary work.

Is it Missionary work for a man to settle down in a community of twenty or thirty families, and ignore the hundreds of unattached persons in a radius of fifty or sixty miles & And how can he do this Missionary work effectively unless he is supplied with the instruments which would make such work possible?

• There are certain facts to which the Church witnesses faithfully. MISSIONARY DISTRICT OF UTAH These you cannot honestly deny and be baptized, confirmed, ordained: because the Church asks you if you believe them, and receives your affirmative answer before She proceeds to confer the tell. Every year a few are added to grace.

But the Church does not ask you whether you follow the practice op Jones has recently confirmed three of the Reformers or the old Catholics in the matter of relieving the Indian girls at Whiterocks, a station burden of your sin.

THE WITNESS will be strictly loyal in setting forth the facts of the Creed, the Ministry and the Sacraments as this Church hath received the same. But in your opinion about these facts, that is not a matter of the Faith but of the practice of the Church; and as such time, asked Archdeacon Reese to care the Church has widely differed in times and places.

"In things indifferent, liberality, in things essential, unity in lians than Methodists, but under the all things, charity."

So if you see some articles in THE WITNESS that you don't out of the place except for occasional like, you can do one of two things,-get angry about it or think about it. We advise the latter, but we do not presume to control you in the former.

Acrimonious controversy, we do not want, even though we print side by side two widely diverging articles. Not because we object to controversy. You do not know us. We positively delight in it, harmful drug which causes all sense but because newspaper controversy doesn't get anywhere, and people are tired of it.

Our Lord was a controversialist: St. Paul was a controversialist. We do not object to controversy by itself. We are merely as an The Christian Indians are bitterly experiment and as a matter of self-discipline trying to publish a opposed to it, trying to make the newspaper that is a witness to the facts, and is a mirror of various ppinions, without becoming an arena for fighting it out.

We welcome courteous contributions from all schools, and we exist for those who want to hear all sides, without having either side forced upon them.

If the Church is ever to exercise a wide influence, the various schools of opinion within the Church will need to understand one another, and how can they if they hear only one side of the matter? And if you as a Churchman are ever going to be big enough to grap-

Ought not Diocesan Missionary Boards to face this problem and would it not be better business to equip five Missionaries in an effective manner, and to require of them adequate service, than to sustain ten Missionaries in a state of enforced idleness and a kind of suspended animation?

On what ground is it the business of Missionary Boards merely to pay salaries? Why have they not the responsibility to provide instruments for effective service as well?

CONTROVERSY

We wish to say another word about the policy of THE WITNESS. The Church includes a wide diversity of practice. There is one faith, but there are a diversity of viewpoints that have their place within the Church.

There are those who deny this. There are High Churchmen who are ill at ease in the pew with their lowly brethren: and there are Low Churchmen to whom High Church practice in every shape is a sign of battle. Lights, incense, auricular confession, and the rest exist within the Church. So do communion tables, black stoles and extemporaneous prayer.

Personally, we agree with Father Dolling, who used incense and prayer meetings; and allowed people to confess their sins in a confessional or in an experience meeting. Why not?

Provided you are accorded such liberty, should you in the interests of uniformity abridge your brother's liberty?

At any rate we shall conduct THE WITNESS on the principle that all these things have their place in the Church, and we shall welcome articles which reflect the viewpoint of the holder. Why not? You need the person with the viewpoint opposite to your own. You need his defense of his position and to understand his explanation of it.

The tendency of American religion has been to narrow each man down to his own constituency and to make him narrow.

"In this dungeon Perpetua saw visions, and Felicitas brought forth an infant. Here she was beseiged by her father and relatives. From here she was taken to the tribunal.

"Another day, while we were at dinner, we were suddenly taken away to be heard, and we arrived at the town hall, where an immense number of people were gathered together. We mount the platform . . . Then they came to me and my father immediately appeared with my boy, and said in a supplicating tone, 'Have pity on your babe.' And Hilarianus the procurator said, 'Spare the gray hairs of your father, spare the infancy of your boy, offer sacrifice for the well-being of the Emperor.' And I replied, 'I will not do so. Hilarianus said, 'Are you a Christian?' and I replied, 'I am a Christian.' And as my father stood there to cast me down from the faith, he was ordered by Hilarianus to be thrown down and was beaten with rods. And my father's misfortune grieved me, as if I myself had been beaten, I so grieved for his wretched old age. The Procu-rator then delivers judgment upon all of us, and condemns us to the wild beasts, and we went down cheerfully to the dungeon. I go with Thoreau to Walden Pond and enjoy a whole vacation, the complete simple life, in a single night. There you have it! But you other men must speak up too. What is it in your ministry that gives it additional human worth to you?"

The Dean spoke next. "It has althat as my feelings, about the Divine man interests grew greater. I have always had a sort of a pity for men who lived in the narrowness of business and professional life. It may seem strange to say it and I do not wish to appear as conceited, but as we are apparently opening our hearts I will admit that my auxiliary power is the sense of my personal independence, and the vastly broader outlook and the vastly greater fields of action which belong to me and seem not to belong to many who work and toil in the world's affairs. They do not think so, I know. They think that I am tied down to some human system of doctrines from which they have a glorious freedom; that I have submitted to some rules of conduct which are arbitrary and joy killing, and that my purpose in my work is to get them to submit to my rules. So my pity goes out to them in their many fetters and limitations and my compassion is aroused by the door-yard meagreness of their earth. But my freedom, the precious sense of applying vaster stretches of truth to the problem of living day by day, the sense of living in a universe and not in a village, all give me a sense of power in my ministry that they cannot have. It gives me broader interests and my mind rejoices in new truth. Lowell writes on Mars. My neighbor does not care because whatever happens on Mars will not affect the stock market. But I care to know what may be known about Mars, because it is a part of God's creation, and it is His forces and laws that rule there. "Indeed," said Hakon, "I'll gladly if such is your will, and she consents; and the sooner I can strike a blow for Norway, the better pleased I'll be."

An altar to Freya was hastily constructed upon the deck and when Hakon was brought up from his cabin by his guards he found his beautiful bride standing before it waiting for "I may be his captive," he said, "or him. AMERICAN PROPHETS THE SUBJECT OF ADDRESSES

The Rev. Dr. Henry K. Denlinger, Rector of the Church of the Holy Apostles, New York, expresses the opinion that America has produced prophets as inspired as those of Bible times. On Sunday evenings during Lent he is presenting in a series of addresses some of the prophetic figures of American history. He num-bers among them James J. TOPEKA CONSECRATED

Grace Church Cathedral, Topeka, Kans., erected at a cost of \$155,000, was completed without debt on Tuesday, Feb. 27th, and consecrated on the Second Sunday in Lent, March 4th. There was a celebration of the Holy Communion at 8:00 a. m. The consecration service, which included a celebration of the Holy Communion, occurred at 11:00 a. m. The Rt. Rev. Dr. Sidney C. Partridge, Bishop of West Missouri, preached the sermon. At 4:00 p. m. there was a musical service sung by the choir of sixty voices. Evening Prayer was said at 8:00 o'clock and the Rt. Rev. James Wise, Bishop of the Diocese, preached the sermon.

And yet the joy of life consists in attempting the impossible. "I can do all things through Christ who strengthens me" and His "grace

And yet most enterprises that have accomplished things for Christ have begun in attempting that which wise men have said could not be done.

We are in a sense risking our reputation to put this enterprise overwe are asking those who believe that weekly Church newspaper costing a dollar a year is a desirable thing only

"What kind of a newspaper do you propose to publish?"

The question is fair, and should be answered before you invest your dollar on this enterprise.

Let me answer this question under four heads:

1. We propose to publish a dollar inspection, often several visits and newspaper. At this price, which seems addresses in a Parish, sometimes ten the psychological one, we must come to fifteen lectures, 334 different unadorned and in simple, dress. The Churches. We wonder if there is another religious body in the world that has such a varied constituency as this Church? It has its advantages and it has its disadvantages, especially to

And one of its greatest disadvantages comes from the habit that each man has of wearing a label.

Here is a man who believes that in the year 1789 God made a special revelation to the Protestant Episcopal Church, a sort of second Pentecost, which it is sacrilege to dispute. Anwant it to succeed, then we do not other finds a complete revelation in 1552, when the second Prayer Book of Edward VI. was put forth; another, After all, the supreme test of our in 1549, when the first Prayer Book was compiled; others see God's hand willing to be fools for His sake, and in the faith and practice of the Medieval Church. Others hark back to St. Augustine and St. Jerome)400 A. D.) -and so it goes. Each man has his label.

> This paper refuses to have a label of this sort. Its mission is to be a witness to the facts upon which our religion is based, rather than the deductions from those facts which any special age has made.

The faith is unchangeable; the interpretation of the faith has changed with the changing years.

We know of no better analysis of the situation than that made by Canon Scott-Holland in the following quotation

"If only the Church will trust is in her! She has but to put out her true innate power. Let her concentrate all her power upon her central act of worship. Let her, in hours of perplexity, be content to reassert her central verities, avoiding definitions, and deductions, leaving the declaration to do its work by its own spiritual weight entum. WHAT DOES THIS MEAN?

1. It means that THE WITNESS reaches every member of that Parish with the special sanction of the Vestry, and their request that each member subscribe for it.

2. It means that some person or some Guild has been appointed to make the canvass, and they will receive the commission of Twenty Cents on each annual subscription which the publishers allow.

3. It means that as each person subscribes, the 20 cents which the Vestry advanced for that subscription for three months will be paid back into the treasury, and the remaining 60 cents will be forwarded to the publishers to extend the subscription to the end of the year, for which payment has then been made.

4. It means that if fifty of the fifty-six families subscribe, the Guild will receive Ten Dollars into its treasury as commissions for making the canvass-the Vestry will get back all but \$1.20 of its advance-and fifty-two times a year the inspiration of THE WIT-NESS will wield its influence for the good of the Parish in practically every family connected with it.

Let every Parish and Mission in the land follow this example and put this movement in the Church in the place of influence it deserves.

ANOTHER ILLUSTRATION

The Men's Club of a Parish with 200 families said:

"Every family in this Parish must receive THE WITNESS, and herself, and the Spirit of God that if any family cannot pay for it, we will."

The members of the Club are making the canvass-an everymember-canvass-and every week comes a long list of subscribers. The Club retains the 20 cents commission to use in paying for the subscriptions they guarantee.

Here are two splendid illustrations. They bring THE WITNESS before the people with the local influence that secures co-operation

> Now of course this is impossible. For the moment a man touches anything definitely, somebody denies it, and the fight is on. We do not propose to issue a newspaper without teaching definite truth, and we hope that we may teach it with some "punch"; otherwise we are foredoomed to failure.

> We all believe that this Church stands as a witness for definite truth, and that such truth may be found in the Prayer Book.

> A witness is one who bears testimony to facts rather than fancies, realities rather than theories-and we believe that these facts are such as are embodied in the formularies and liturgy of this Church.

We propose to be loyal to these consecrated on Ascension Day. At a facts. BISHOP MORRISON OF IOWA COMMENDS THE WITNESS

"I have read the advanced issue of THE WITNESS and I like it. THE WITNESS will not take the place of The Living Church or The Churchman. These are fine papers and the Church has reason to be proud of them. But these papers are too expensive for the rank and file of the Laity. They appeal to people who are already well-informed as to what the Church teaches and who are personally interested in the discussion of important movements within the Church.

"The rank and file-the plain people-want a NEWSPAPER, not a weekly magazine. THE WITNESS is an attempt to give Church people a paper, at one dollar a year, which will avoid controversy, yet will give all important Church news in newspaper form of speech, which will teach positively and not dogmatize, and which will minister to the spiritual needs of our people.

not dogmatize, and which will minister to the spiritual needs of our people. "If the editors succeed in any measure in publishing such a paper, the Church will owe them a debt of gratitude, for it will be a help in the work in every Parish and Mission in the Church. It will be read by a great number of people who cannot be induced to read the magazine papers now circulated. THE WITNESS will build up no party within the Church, but it will inform and stimulate the man whose reading, if he reads at all, is the daily news-paper. It will not convey the impression that the Episcopal Church is a house divided against itself, but it will, we hope, convince the average man-that the Episcopal Church is supremely interested in personal religion and that our people are working with one purpose to make Christ's Kingdom-a spiritual power in the world." a spiritual power in the world."
