# **NEW YORK CONVENTION FAVORS PROHIBITION; WORK ON CATHE-**DRAL WILL STOP DURING WAR

Diocese of New York was held at the Synod House, New York City, beginning on Tuesday, November 13th. Immediately preceding the calling of the Convention to order there was celebration of the Holy Communion in the Cathedral of St. John the Divine. The Bishop of the Diocese, the Rt. Rev. Dr. David H. Greer, was the Celebrant, assisted by Suffragan Bishop, the Rt. Rev. Dr. Charles S. Burch; the Very Rev. Dr. Wilford L. Robbins, Dean of the Cathedral; Archdeacon Ven. Wm. H. Pott, D. D., and the Rev. George F. Nelson, D. D., Canon of the Cathedral.

Bishop Greer, in his address, dwelt upon the spiritual and material functions of the Cathedral. Bishop Lawrence of Massachusstees called attention to the lack of a sufficient number of army Chaplains, stating that in some instances there are only four Chaplains to 40,000 men, and announced that in January the Church would make an appeal for \$500,000 to carry on the work among the soldiers. The following resolution was unanimously adopted:

"Whereas, It is the judgment of this Convention that there should be one Chaplain for every 1,200 men in the army in the United States:

"Resolved, That this Convention favors the enactment by Congress of House Bill No. 6320 making provision to this effect."

Another resolution was adopted affirming loyal and wholehearted devotion to the cause of the United States in the prosecution of the war, and a copy was ordered sent to President Wilson.

His brethern of the Clergy are fond of him, and he has made innumerable as well as within St. Mark's. The and has made several efforts to adjust matters with a view to his ultimate return.

He was "Our Dean." He belonged to everyone in Grand Rapids and in the Diocese. We all love him, and hate to give him up. Our loss is some one's gain, but we are selfish enough not to find much comfort in that.

He understood and ministered to "all sorts and conditions of people." We rejoice that we have had six years under his leadership. God bless him in his work!

For many years Dr. John R. Mott has interpreted to the men and women in American colleges the religious challenge. ### S. John 14:1-Let not your heart be troubled.

No life is without trouble. Some have much more than another, but we all have to taste of it. When trouble comes, how do we regard it? The whole or the part? If it be the former, why, then we are going to be abject slaves. If it be the latter, we are bound to experience the freedom of development. Christ seeks to bring His perfect guidance to bear. He urges us not to allow the storm of trouble to deluge the heart-the life, and what He urges He freely offers to help us to carry out. By following the Savior we shall always keep trouble in a subordinate position.

#### XLIV

The Creed states that Christ "will come to judge the quick and the dead". Four weeks in the year are set apart for the consideration of this of it, and every sermon that the Apostles preach urge upon men's considcration the thought that we must all stand at the judgment seat of Christ.

world, is to be also its Judge. The judgment, but rather increase it; final blessedness or punishment. for opportunity always brings with it a judgment, as it reveals what is in each man, and whether or not he measures up to the opportunity. Light reveals, and so brings judgment. The true Light which has come into the world, reveals each man truly, and discloses those who have which said that power was the only "loved darkness rather than light". The Gospel, brought to a heathen people, reveals who among them loved is being proven the philosophy of the faint light of truth which they had in their former religion, for all and not the God of truth. THE LAST JUDGMENT The presence of the Gospel in the world is thus judging the world now, and when Christ shall be revealed in the fullness of His glory, that very revelation will bring the fullness of great fact. The New Testament is full judgment, and the final division of mankind. ### **Splendid Work of Boston Cathedral for** Sailors in the Navy

Dean Rousmaniere's weekly bulletin gives the following interesting account of the work being done at St. Paul's Cathedral, Boston, for sailors: "Soon after Commonwealth Pier was taken over by the Navy Department for a 'receiving ship,' a need arose for hospitality and social service for the hundreds of young men arriving almost daily in Boston, mostly from the West and more distant parts of the country. Most of these were strangers, knew no one in this vicinity, and not infrequently they could not even find their way to the ship. They naturally began to see the town,

The compelling power we see affecting our life as patriots is the same which speaks to us as average Christian people, saying, now is the time for the Church to do its greatest work. You MUST live and act your best as Christian men and women. Our national life must be converted and turned toward God. Every one must be brought into conscious fellowship with the Church and her Divine Lord. The claims of religion must be recognized, the sacraments appreciated and the teaching of Jesus understood! The Church herself calls: Be a witness to Christ in the Nation. He died for redemption of the world we are fighting to make safe. Learn His precepts. Seek His grace and devote yourself to His service. Why should there not be such a prompt response to the Church's commands as to send a thrill of inspiration and power throughout her ranks and bring many into the Kingdom of God in this great day of opportunity!"

Moule: For the perfecting of the saints. The idea is of mending a breach or completing a connection. The practical suggestion here is most important. The Divine gift of a Christian ministry is to have its effect above all things in the fitting of the saints for active service for the common Lord. Government, preaching, teaching is to bear upon this. Nothing will be a more lawful result of a Divine ministerial commission than energetic efforts for Christ and His cause on the part of private Christians. ### ADVENT

There never was an Advent in the history of the world when the watchword of our Lord was more significant.

As a Nation we need to "watch and pray." As Christians to whom life and death, God and Judgment, Heaven and Hell, are realities, made doubly conspicuous by the signs of the times, which shine forth in large letters, the nemesis of a world that has forgotten

This war is the result of a business that served Mammon more than God; of a diplomacy that has been brutally selfish; of a science that has been grossly materialistic.

In this slaughter of conscience in the interests of efficiency Germany has led the way, and the rest of the world has paid homage to Berlin and Vienna until this brutal war stripped them of their ornaments and left exposed the man in all his meanness and hyprocracy.

This Advent is a time for us to repent, to watch, to pray that we as a nation may be successfully inoculated to prevent the Kultural germs from breaking out into the same dreadful disease.

The cause of this war is one thing, the occasion is another, and the cause is a brutal selfishness that is willing to crush out all humane instincts in the worship of Mammon.

Once again we see children being sacrificed to Moloch, and the Priests of Baal in their hysterical rage trying to call down fire from Heaven to consume their Pagan sacrifices.

But we see in our own country, amid all the encouraging signs of Christian sacrifice, the same desire of capital to exploit patriotism, of organized labor to exploit patriotism, of callous militarism to exploit patriotism, and of Christian men and women to sacrifice spiritual realities to material things.

We hear much of conserving food, but little of conserving true religion and piety. And yet, if we dissipate our spiritual forces, if in our hysteria of war preparations we forget God, of what avail is it that we haste to rise up early and eat the bread of carefulness.

Except the Lord keep our nation, the watchman watcheth but in vain and the soldier lays down his life for naught.

God forbid that I should hold back the hands from doing, but we have a duty to be as well as to do, and that duty of our being is the one, the only one, which will make our doing a patriotic one. Of what value would be our victory if it left us without God in the world—or worse still, if it left us with a Prussian God? We need to conserve our religion as we do our food with reference to its food value. There are those who want a religious nourishment of candy, and others want beef three times a day. We need to conserve in true proportion all the elements of spiritual nourishment, if we are to have a strong and vigorous appetite for the things of God. Our anemic life is due to malnutrition from bad feeding.

### THE STORY OF THE CHURCH

### The Papal Supremacy

In the X century the Papacy was an office that had been degraded into a tool of Italian politicians and a plaything for loose women. It had lost the respect of Christendom and possessed little real authority in Western Europe.

In the XI century it had been rescued from itself by the firm policy of the German Emperors who had forcibly placed German prelates of high character upon the reluctant Italians. It was the imperial policy to make the reformed Papacy to be the life and strength of a renovated Empire, but in the latter half of that century, by the policy of Hildebrand, this reformed Papacy itself claimed to be the source and final judge of the imperial office, and the creature which had been warmed at the fire of the imperial care became the deadliest foe to its benefactor.

The XII and XIII centuries marked the relentless struggle between the successors of Hildebrand and the successive Emperors, divided Europe into the Papal Guelfs and the Imperial Ghibbelines, and devastating Europe with its civil wars between Frederick Barbarosa and Alexander III, and Frederick II and Gregory IX, so that as the result of the Papal claims to temporal power, Germany was distracted, Italy dismembered, England disguised and France empowered by its controversies.

Every nation which had felt the hand of Papal government was paralyzed and permanently disabled, especially Germany and Italy, which owed to this Imperial-Ecclesiastical controversy their national impotency until modern times, while England and France in their resistance of Papal aggression built up strong national establishments.

As the weapon of the Pope was excommunication of the King, God, or what is even worse, patronizing Him,-as Christians we need it became necessary for both Edward in England and Philip in soldiers and the military camps was France to summon the Commons, or the Third Estate, in order that the outstanding subject in the disall classes of people might be included in the resistance, and therefore none could be left to back the Papal Anathema.

It was this summoning of the Third Estate in England and cerning the life and work of the France that became the basis of constitutional government in these nations, and which built up in England the strong constitutional have done much to make for unity government that has survived, and which gave to France that tem- and good understanding and activity porary establishment which enabled her to make the Papacy her tool instead of her enemy-a questionable asset, for in doing so France suffered the same as every nation which has housed the Pope. She lost more than she gained, for she lost the democratic form which England maintained, and herself degenerated into the tyranny of Louis XI.

But during all this time the Papacy played its role, as a foil upon which secular tyranny was broken and the common people came into their own. The King who would successfully withstand the Papal power must include the Commons in his government, and so parliaments came to be.

The Papacy itself in its mad ambition for temporal power overreached itself, and the work of Hildebrand and Innocent III tumbled into Nemesis in the hands of the haughty, hot-tempered Boniface, who satisfied his vanity at the Papal Jubilee, but whose whole establishment tumbled down, because there was no Emperor to protect him from the enemies which his violence produced.

Papal greediness had overreached itself, and in destroying the imperial power had made itself the easy victim of the king of France

During the XIV century, the Pope was a French subject, living in France and doing the will of a French King, growing more luxurious and more impotent every day in the balmy atmosphere of

But we need to pray also for the heart of Christ. What a save ing in recklessly extravagant waste of life and money would the business world have made if it had been true to the warnings of Jesus Christ! And yet men fancied they were being practical, and building up the world's wealth in despising the precepts of Christ and substituting the wornout maxims of worldly policy.

How often have we heard that the Sermon on the Mount was impractical! How clearly do we see that enlightened selfishness is the most damnable form of all selfishness.

How clearly we ought to see that this war must issue in a new Earth in which Dives can not ignore Lazarus, or he will wake up in a place of torment.

But if so that men need to pray that they enter not into the temptations which the results of this war will bring.

Let us begin this Advent to do our bit. As soldiers of Christ let us put on the discipline of the Christian life; let us be faithful soldiers, to be found at our respective posts in season and out of season; let us seek hard jobs for Christ-not easy ones; let us assist there the unfortunate country has paid the penalty of its devotion. Southern France.

For seventy years the Papal buildings in Rome went to rack and ruin, while French Popes lived in comfort at the Court of Augnon, but creatures of the king of France.

The very allies that the Papacy had chosen proved its downfall. The Roman robbers of Southern Italy; the heretical ragamuffins of Milan; the Tuscan estates of Countess Matilda; the free cities of Northern Italy; the Franciscan beggars; and the Dominican inquisitors were strange bedfellows for the Vicar of Christ to choose in order to strengthen a purely temporal throne, and they all aided in his fall.

It was during this questionable period of Roman administration that the doctrine of transubstantiation was made a dogma of the Church and the ancient discipline of penance for sin was transformed into the medieval practice of compulsory confession (1215). It was also the period in which the Roman Church put forth the doctrine that heresy should be put down by the sword, and the hateful Inquisition became an established institution in Papal Europe, but never tolerated in France after the bloody Albigensian horror, nor permitted in England at all.

If we shall know prophets by their fruits, then Italy, Germany and Spain gathered thorns and thistles, not grapes and figs from the harvest of Papal control in Church and State which an unfortunate lot assigned them.

Wherever the Roman idea of the Pope's supremacy has been most completely successful, there greed, not piety, has ruled, and Spain; it has paralyzed Mexico and the States of South America, for William Jay Schieffelin, Esq., Ph. ### TERIAL FOR THE AMERICAN OF BY AND BY

Continuation of Report of 1917 of the Committee on Various Races to Provincial Synod of New England

#### THE BOHEMIANS (CZECHS)

There are over half a million Bohemians in the United States. Far different from the Gypsies who passed through Bohemia in the Middle Ages and brought into France their unrestrained "Bohemian life", the true Bohemians, or Czechs, are among the quietest and most domestic of all who have sought our hospitable shores. Five centuries ago they were "the pioneers of moral liberty and soldiers of truth", and today Bohemia is the industrial "crown of Austria". They are the most literate of our immigrant skilled workers and the cleanest of all our laboring class, honest in money matters and of high moral integrity.

#### THEIR HISTORY

In the Ninth Century the Bohemians were converted to Christianity by the Eastern Orthodox Greek Church. In the Eleventh Century they were forcibly brought under the domination of the Bishop of Rome. In the Fifteenth Century they obtained their religious freedom by a revolt against Rome, working in concord with the movement for reform in the Church of England, and the national Church of Bohemia was thus established a hundred years before the Protestant Reformation began. For 150 years this great Episcopal Church of Bohemia struggled against the attacks of Rome on the one hand and Protestantism on the other, and was wrecked as, the Thirty Years' War began. In 1620, the 800,000 survivors out of a population of 4,000,000 submitted sullenly to Rome.

### THEIR RELIGIOUS CONDITION

Coming to this country in a spirit of resentment against the Church, their attitude is antagonistic to Christianity. Protestantism they dread and suspect of self-seeking; Rome they hate as the ancient ally of an oppressive government. The Bible they interpret with childlike literalism, and attack it with the books of Ingersoll in their hand. Freed from the religious despotism of Austria, many of the Bohemian leaders in this country are "Freethinkers", and these are carrying on an atheistic propaganda, with the express purpose of destroying all Christian faith in the minds of the young. Against this energetic and organized movement the Roman Catholic clergy are powerless to contend, and entire communities, numbering sometimes thousands of souls, have been abandoned as hopeless. Not more than 175,000 Bohemians in the

But they still remain deeply religious, and they can be held and brought back by patient and cordial comradeship. They are really hungry for Christ and His Church.

THE ARMENIANS-A RACE OF MARTYRS

Every one in America today knows of the atrocious sufferings inflicted on the Armenians by the Turks in the course of the great war. President Wilson set apart a day when all citizens were requested to make offerings to relieve the hunger and nakedness of those Armenians still left alive. But beyond this knowledge, we as a people know little of these gallant martyrs. Persecution has been their on Customs, the basis of their origin sad lot for centuries. Grace Church, Anniston, Md., is doing a splendid work for the soldiers at Camp McClellan near that city. The Rev. Charleston Barnwell, Rector of the Parish, reports that the entire second floor of a building near the center of the city has been rented and equipped for the use of the soldiers with a consecrated woman of the Parish in charge. It is open every night from six until nine, and on Wednesdays and Saturdays from three until ten. Coffee, hot biscuits with butter and jelly are served by the Ladies' Guild every Saturday night, and the attendance on these occasions have averaged between 100 and 125. In this far-away Southland the boys have found a place that breathes the atmosphere of home. They also appreciate the privileges of the Church. They not only fill the pews on Sunday morning but they fill the aisles. They march with the Choir, and on several Sunday nights the Girls of the Choir have given place to the soldiers. MEMORIAL TO HOUSE OF BISHOPS IN SPECIAL SESSION AT CHI-CAGO, ILLINOIS

The American Committee for Armenian and Syrian Relief desires to express to you, and to the Protestant Episcopal Church, through you, its deep gratitude for the cordial help and co-operation of your body in the indispensable relief work in Western Asia which the Committee has conducted for two years.

Of the horrible condition of the Christian peoples of the Levant, brought about by deportation, massacre, hunger, disease and destitution, you are well informed. The oncoming Winter threatens unprecedented suffering because of the depletion of regular sources of supply and the consequent high prices. Refugees have exhausted their own resources and are completely dependent upon private American charity.

More than one hundred brave, competent American Missionaries in Turkey, Caucasus and Persia are standing by these wretched sufferers, and are willing to lay down their lives to save them. The Syrian (Nestorian) Church of Eastern Turkey and Western Persia have been rescued by the funds from America. This ancient Church has especially close relations to the Archbishop of Canterbury, and American Episcopalians have an intimate interest in its welfare. The Bishops of New York, Pennsylvania, and others, have their need close at heart. A cablegram just reports the gratitude of the Patriarch, Mar Shimun and his urgent request for appeal for further funds. In these two million Armenian and other Chris-Asia. They must be saved.

It is perfectly honest and courageous for men frankly to break the law of the Church if they feel impelled by conscience and convinced that this is the only way to bring the Church to accept their view. It is not honest, under the guise of reservation for the sick, to stimulate the adora-

tion of the Sacrament. It would seem that the rubric, as adopted by the House of Bishops, might make all that clear.

If it does, it will be a great gain. There is altogether too much word confusion in our theological controversies. We are not definite enough. Reservation for the sick is only a question of practical expediency. Reservation for worship opens a proof God and man. We ought to consider them separately. I may add that the controversies about confession are constantly befuddled in the same way. The confession of one's sins, as urged by many a great Anglican divine, for easement of one's soul is a question of pastoral theology. Practical psychological considerations must determine upon it. Confession, regarded as Sacramental and as part of the theological system of the Church, is a very different matter. It is of the utmost importance that these things should be made clear, and that we should know where the Church stands upon of the Prayer Book is sure to help.

Two committees were appointed, one for the purpose of organizing a similar institute another year, and the other to take measures for the perfection of a Children's Liturgy for use in Sunday School work. This is the first meeting of this kind ever held in this Sub-District, but all who were present are hoping that it will not be the last, and already plans for the one for next year are being talked of by the committee in charge of that work

During the days just before and just after the Institute Mr. Sobagaki toured the three Convocations, visiting the Churches and holding children's days, from Sept. 25 to 28, at the Yam- meetings, as well as speaking at juvenile gatherings in public schools and elsewhere, rousing interest in This place is a little village com- Sunday School work among both Churchmen and non-Churchmen, as exist for the convenience of those well as among non-Christians. The appraisal of Mrs. Mary Warden Harkness' estate in New York, November 8th, shows that a few days after her husband's death in 1916, she notified the Rev. Lend Me Your Name. By Francis Perry Elliott. Chicago: Reilly & Britton. Price \$1.25.

Mr. Elliott has found somewhere the fountain of humor in which he has dipped his productive pen.

There is nothing profound or startling in Lend Me Your Name, but for genuine amusement and continued interest it would be hard to find anything in the light and frivolous more enjoyable. Already this story has been seized for the "movie" stage, where we predict it will find continued appreciation

As a palliation in illness or in a case of the blues we recommend Lend Me Your Name as a good dose to take E. H. RUDD.

While supposedly this story of patriotism makes an especial appeal to the boys of our country, the reviewer can testify to the interest which two young girls had in the reading of this book. It deals with a young boy, Penfield Butler, who has unthinkingly desecrated the Stars and Stripes patriotism and his love for the flag. A book which has its appeal to-all serving as Boy Scouts.

Each of the Diocesan officers spoke just a word: Mrs. Letcher, President of the Woman's Auxiliary, Miss Lila Tucker, Vice President of the Juniors, Miss Anne Booker, Secretary, Miss Roberta Newton, Treasurer, Miss Julia Holt, Ed. Secretary.

"What are we doing for the boys?" was asked. • Only two branches reported as doing anything for the boys. St. Andrew's, Norfolk, and St. John's, Hampton.

Stress was laid upon paying the pledges before doing special work. he pledges represent the work that the Juniors as a whole are doing and must be met first. Many branches did not give anything to the pledges this last year . The whole amount of the pledges was only \$235. This obligation was not met. Some of the pledges were cut in half. The pledges are also credited on the apportionment. The box this Christmas is to be sent to the Rev. Nevill Joyner, Pine Ridge Agency, South Dakota. The Juniors of Wilder, under Miss Sutton, made a beautiful warm quilt which will be sent.

Rev. Hubart Lloyd addressed the Juniors and showed the pictures and told the story of the two Japanese girls who are at the Chatham School.

All were delighted to have a word from Deaconess Adams of Keckee, who thanked the Juniors for their
