The Archbishop, with his Chaplain, arrived in Cleveland Friday morning, and was the guest of Bishop Leonari at his home until he left for Chicago in the evening. Following the noonday address, upon invitation of Bishop Leonard, the Archbishop received for an hour, at the Episcopal residence, the clergy and their wives of the

The Vestry as a body stands responsible for the financial condition of the Parish. The duty of raising money cannot be given over to the Rector or the Treasurer or some active Vestryman. While one or another may take certain lines of work, the responsibility is with the whole Vestry; and no good Vestryman will hear the Treasurer report a deficit or a delay in the payment of the Rector's salary without a sense of shame and a resolution that he will try to prevent it happening again. Above all other institutions, the Church should bear a high name for financial honor. Busi-

The grave is only a gate to life. Only by dying to the lower can one hope to live to the higher things. Baptism is the gate to eternal life, which, however, is only won by continual mortification. The Church is not presenting to the world a dead Christ, but an empty cross, which is to serve as a stone against the grave into which we put the old world of sense and sense-indulgence. "In the garden there was a grave." God help us so to live that each morning may be a joyous resurrection. To make this possible we must cleanse our consciences each night before we go to rest. And to preach the gospel of, as well as to pray the prayer for, a joyous resurrection should be our ambition. This is what Jesus did: "Who for the joy that was set before Him endured the cross, despising the shame", and out of His death He rose as the first fruits of a permanent return to that life whose chief quality is joy, joy in the Holy Ghost.

One sheep turns out to be a wolf in sheep's clothing, therefore all sheep must be wolves in disguise.

This is manifestly the case in the effect that the Kaiser's claim to familiarity with God is having on some folks.

German plots are far more dangerous than German bullets.

It is something, I presume, to be an artistic liar. And any plot which involves deception is one in which a professional liar ought to be an expert.

But, then, why believe a liar?

It is true, is it not, that religion is one of the fundamental motives for courage in battle?

It accounts for the courage of the Turk as well as the Christian. Naturally, anything that will help the German soldier to be courageous and that can be had at little expense, is an asset that the Kaiser cannot afford to lose.

There are a few other considerations that I would like to suggest.

(1) The Rector is the appointed leader of the Parish. In addition to his routine duties, he should be alert to opportunities for the development of the work of the Parish and the increase of its influence. Toward such movements the Rector should take the by his enthusiasm into plans and enterprises which are not wise, the Vestry serves as a wholesome check; Vestry's advice. At the same time, the Vestry should in general recognize as enthusiasm, he has a right to expect a sympathetic consideration of

his plans; and if, after full discussion, favorable action is taken, he should be able to count upon the support of the whole Vestry and through them of the Parish. In a well ordered Parish, Rector and Vestry work together as and loyalty.

(2) As the Vestry represents the Parish, I wish that it were possible for the members of the Vestry to of the people of the Parish. The Rector knows all. The Vestryman usually knows but very few. It is not his fault; he has no means of knowing At the same time, I am conthem. fident that, if the people of the Parofficers, being earnest and enthusiastic men, knew the whole people, there

There were six baptisms, four adults and two children, and nine confirmations. St. Andrew's Church, Ft. Scott, is rejoicing in renewed spiritual life and confidence for the future.

Two new movements are going on for the continuation of the effects of the mission. One is the organization of a training class for workers under the Rector, and the other the formation of an organization for social services.

But we are told that a good many of our own woolly lambs are being incited to hostility to God because the Kaiser lays claim to Divine favor.

Of course this is just what the Kaiser wants. If he could get every American to give up his religion because he has established his claim to proprietorship therein, then he will have secured for his troops a powerful incentive to die in his behalf.

He was referring to the Camp Secretary of the Brotherhood of St. Andrew, who had visited him on several occasions.

The nurse decided to break the bad news to him.

"You are a very sick man," she said.

"I know it," replied the patient.

"Don't you want to see a minister?"

was the next question. "No," answered the man. He explained that he had never been con-

nected with a Church. "But I would like to see that Brotherhood man," he told the nurse.

A few minutes later, the Brotherhood Camp Secretary entered the hospital. The sick man greeted him with a smile and a feeble hand-clasp.

They conversed for a few minutes, and it seemed to have the effect of a tonic upon the patient.

But he was very weak. His head sank back upon the pillow. The Brotherhood man sat there, clasping the soldier's hand, until he fell into a doze

Within a few minutes he was asleep. When the soldier awoke, he was better. The doctor was summoned, and examined him.

"He has passed the crisis; he will live." he said.

Whereupon there was rejoicing in that camp hospital.

VARIOUS WAR FUNDS

The raising of great funds for war work is the order of the day in New York, as elsewhere. The Jews were early at it with \$5,000,000, and now the Baptists and Roman Catholics are raising \$1,500,000 and \$2,500,000, respectively. This refers to what may be called the Metropolitan District. The Roman Catholic Fund is for the work of Knights of Columbus in various camps, and is supposed to be drawn from the Archdiocese of New York, which includes not only the city, but several adjoining counties. Although the Archdiocese has more members than the whole Episcopal Church in the United States, and includes some of the wealthiest men of the country, besides most of the metropolitan lars by the contributions of those who breweries and saloon keepers, the Ro- were admitted by card. man Catholic committees are openly and urgently soliciting contributions from every Protestant source.
